English

Greek

Experience

2020

MIT App Hackathon 2020

Our Aid

With the team Talos I participated in the MIT App Hackathon 2020 with an app called 'Our Aid'. We took the 3rd place in the category 'Youth team'. Here is a link to the full results: <https://hack2020.appinventor.mit.edu/results>

2021

Europe Code Week Hackathon 2021

Book In

With the team Talos Programmers I participated in the Europe Code Week Hackathon 2021 with an app called 'Book In'. We qualified in the second phase of the competition with the same app but unfortunately we did not make it to the top three. Here is a link to the results of the first phase: [Google Drive](#)

2022 - Now

Working at TALOS (teaching students)

TALOS is a university team R&D of educational tools for kids to learn about STEM subjects. There, I teach about embedded systems and programming to middle-school students.
